About the Summit Racing EDRS Series Guidelines

published by Speedgroup

The purpose of this document is to describe the series regulations and act as an aid to organizers and competitors active in the series.

The guidelines document is published once per year. If necessary the document will be updated during the season.

Information about this will be published at <http://www.dragracingeurope.eu/edrs>

1. About the Summit Racing EDRS Series

The Summit Racing EDRS Series is operated by Speedgroup. The intention with the series is to combine national/divisional racing with international racing, to create an attractive series both for teams who wish to travel longer distances as well as those who prefer to race closer to home. As there are many different competition classes, also organizers which operate events at non-permanent tracks with a limited track preparation can participate in the Summit Racing EDRS Series by running appropriate classes.

3. Competitor with most won rounds wins at series events.

4. Lottery

Disputes regarding points calculations are decided by Summit Racing EDRS Series Workgroup. Separation of competitors is only applicable on positions 1-10.

10. Ladder Types & Field Sizes

Pro-ladders must be used in the classes:

- Pro Modified
- Pro Street
- Super Pro Street
- Street
- Top Doorslammer
- Top Fuel Bike
- Pro Stock Motorcycle
- Super Twin Motorcycle
- Super Street Bike

For all other classes Sportsman-ladders must be used. The organizer can limit the field size for the eliminations. Or, if the circumstances so demand, the number of accepted entries. If a limit exists, it shall be indicated in the invitation to the event. In the classes where Sportsman-ladders are used, the goal is that all entered competitors can attend in the eliminations.

11. Race number Priority

In case two drivers/riders in the same class claim the same race number at an event included in the Summit Racing EDRS Series, Speedgroup recommend organizers to give priority to series race numbers 1-10 (based on 2017 EDRS points standings) before National ranking race numbers. International Series are normally ranked higher than national series/championships and it is also helpful for points coordinators to keep track on drivers/riders points. It is always up to the race directors on site to decide.

12. Cancellation of event

The organizer together with the jury has the right to cancel the event or part of the event.

If cancellation is decided, all competitors will be notified no later than 24 hours before start of scrutineering. In case of rain or other external factors, the entry fee will be kept by the organizer. If the event is cancelled before or during semi-finals, no prize money will be paid.

If the event is cancelled before or during the final, it is recommended that 60% of the prize money will be paid out. I.e. the total prize money for the "winner" and "runner-up" in the affected class is summed and 60 % of the total amount is shared between the 2 finalists. In case of round money, only completed rounds will be subject to payment. Cancelled part of an event may not be completed at a later time.

13. Alternates

Once qualifying has been concluded and a ladder has been established, pairings will not be changed. However, should a qualified vehicle and driver be unable to make the first round of elimination's (not reach the bleach box), an alternate will be inserted in their place.

The quickest non-qualifier will take the first available space, the second quickest non-qualifier the next available space and so on. When and if this happens is at the sole discretion of the Clerk of the Course. First round points will be kept by the qualified driver.

If an alternate driver is inserted but is eliminated in the first round he will not get any points. If the alternate is eliminated in the 2nd round, or later, the points from the first round will be deducted.
